## DOMES LIGHTING FINISHES

A GUIDE TO POPULAR COLOR COMBINATIONS

# HOW DO I CHOOSE MY DOME LIGHTING FINISH COLOR COMBINATION?

## 3 QUESTIONS TO KEEP IN MIND

1

### WHAT OTHER HARDWARE FINISHES ARE PRESENT?

- Consider the finishes of other hardware elements in the room (cabinet handles, door knobs, other lighting fixtures, ect.)
- Matching your Dome Pendant Fixture to these finishes can help create a cohesive color scheme
- Consider whether the other finishes in the space are cool or warm tones
- Cool tones, like Silver, can give a fresh and modern feel to a space
- Warm tones, like Copper or Bronze, can add warmth and richness to brighter spaces
- Mixing and matching warm/cool tones can create a balanced color palette

2

### DO YOU HAVE NATURAL LIGHT AND HOW MUCH?

- Consider the amount of natural light in the room and the direction of the windows
- If the room receives a lot of natural light, choose an interior finish that reflects sunlight beautifully
- Warm metallic finishes, like Copper and Gold, can add warmth and radiance to the space, making it feel cozy and inviting
- If the room doesn't receive much natural light, choose a brighter interior finish
- Brighter colors, like Satin Pebble, French Cream, or Satin White, can maximize the available light and make the room feel more open and airy

3

### AESTHETICS OR IMPROVED LIGHTING?

- Decide whether aesthetics or improved lighting is your top priority
- For a warm and inviting ambiance, choose a warm interior finish color
- For improved lighting quality, choose a brighter interior finish color
